the big idea

NEAT AND TIDY

We've found just the thing to kick-start your new-year reorganisation drive, be it to clear up clutter or make more space in a small flat. Lualdi's Framework panelling system reimagines walls as dynamic, multifunctional elements with a super-customisable design that combines shelving, drawers, lighting and more – all with that classically sleek Italian elegance, of course. You can create anything from walk-in wardrobes to bookcases and workplaces with this clever bit of kit, now with a new 60mm-thick door model and a dedicated aluminium frame. **Framework, price on request, Lualdi**
